Take your time to enjoy the views, and rock formations, and creek crossings along the way as the track leads a nearly direct route to Cowan Station, through a wonderfully remote section of bushland.

#### 0 | Berowra Waters track head

(390 m 8 mins) From 'Berowra Waters Trackhead', this walk follows the 'Newcastle' sign along 'Kirkpatrick Way' and across the culverted Franks Gully creek. As the walk crosses the gully, there is a picnic area and public toilet (and tap water) on your right. The walk continues along the road, keeping the water to your left for about 180m, then passing under the yellow boom gate. About 30m later, the walk stays left to head alongside the fenced car park. At the far end of this car park, the walk comes to a turning area at the end of Kirkpatrick Way.

#### 0.39 | End of Kirkpatrick Way

(810 m 26 mins) Continue straight: From the end of Kirkpatrick Way, this walk follows the GNW arrow post along the track, keeping the water just to your left. This walk follows the rocky shoreline, enjoying the views of the water, the boats and houses on the other shore and the large rocks (up to your right). After about 450m, the track passes a large boulder and then turns right and climbs up a staircase, finding a small seat and viewing platform.

Veer right: From the seat and view, this walk follows the 'Cowan' sign steeply uphill, following the series of timber and rock steps. After about 50m, the track leads up beside a rock wall, and at the top, turns right and mostly flattens out for about 80m before starting to climb again. At the top of this hill, this walk comes to a small clearing (on the left, that has been used as a campsite) and a large unfenced rock platform with great views back over the valley (on your right).

#### 1.2 | Berowra Waters view point

(390 m 9 mins) Continue straight: From the view at the top of the ridge, this walk follows GNW arrow post east, directly away from the Berowra Water views and over the small rise. The track soon leads down off a rock, where the track bends right and starts to lead fairly gently downhill. The track then leads down a few short, steep, rocky sections before crossing a lovely creek, flowing over the sandstone rock platform. This creek may be slippery and can be particularly risky to cross after rain.

#### 1.59 | Deep Bay Creek crossing

(840 m 32 mins) Continue straight: From beside the creek, this walk follows the GNW arrow post east, away from the creek, up the steep rocky hill. The track soon passes between two rock slabs, then passes a handrail to climb up two metal pegs beside some more hand railing. The track then continues to climb up for another 50m before mostly flattening out for about 150m. The track then starts to climb again and soon steps up a rock with two more metal pegs. Then after another 70m, the track climbs up past a sandstone cave and heads up a crack in the rock with four metal pegs, then just past the next cave, goes up another rock with a single peg. A short time later, this walk leads up another rock with two pegs, where the track then leads up the steps through a cleft of a rock. Here the track mostly flattens out and leads gently uphill for almost 200m until crossing a small saddle, marked with a two GNW arrow post beside each other. The track then leads steeply up to a fair sized rock platform, with rewarding views back over Berowra Creek (on your left). From this view point, the track leads fairly gently uphill for almost 150m, coming to a T-intersection with a wide sandy management trail.

#### 2.43 | Int of GNW and Coreen Close service trail

(220 m 4 mins) Veer right: From the intersection, this walk follows the GNW arrow along the sandy management trail, heading south. The trail immediately bends left and passes a track (on your right, that runs generally parallel to this trail). This trail leads down through the scribbly gum and heath forest, where the trail widens (after about 70m) and then comes to an intersection beside the large ridge top campsite. There is a 'Berowra Waters' sign here, pointing back along the trail.

#### 2.65 | Ridge Top Campground

About 800m from Turners Rd, Berowra Heights lies this pleasant ridge top campsite. This is a fairly popular campsite on the Great North Walk, providing a flat area with plenty of shade. There are no facilities (or water) at this large campsite. A faint track leads west from the campsite to an unfenced cliff with great views over the Berowra Waters Valley.

#### 2.65 | Int of ridge top campsite and GNW

(1.7 km 37 mins) Veer left: From the intersection, this walk follows the 'Cowan Station' sign, directly away from the campsite along the clear track. The track leads over a small rise and then heads down to a four-way intersection with a management trail (and the GNW track continuing ahead). Continue straight: From the intersection, this walk follows the GNW arrow post east along the track as it leads very gently downhill along the top of the ridge. Over the next 300m, the track passes a rock platform and comes to a second rock platform with more views and a 'Great North Walk' log book box on a post. After leaving your note (and reading through a few entries), this

walk continues down along the top of the ridge for another 200m to step down off another rock platform (ignoring the track to your left). Here the walk starts to head downhill for the next 1km - initially the track leads down a series of short rocky steep sections, and passes some interesting large rock boulders along the way. As the track moves further into the valley, it becomes consistently steeper until leading down leading into the ferns and beside Joe Crafts Creek.

#### 4.31 | Joe Crafts Creek crossing

(660 m 26 mins) Continue straight: From the western bank, this walk crosses Joe Crafts Creek and heads east up the clear track. This creek may be particularly dangerous to cross after heavy or prolonged rain. The track climbs up a series of stone steps, passing through a couple of cracks in the rock before a 'Great North Walk' sign about 60m from the creek. The rocky track continues to climb steeply up for about 300m, then climbs up a timber (and metal) staircase, followed by a few sections of handrail. Here the walk leads up around the base of rock wall and then climbs up the side to the top of the large, unfenced rock platform with great valley views. The walk continues up the ridge line for another 200m, very gently at first, then more steeply up the rocky sections. The track heads along the base of another rock wall, then up the stone steps and past the handrail to come to an intersection marked with a 'Great North Walk - Viewing Area' sign. The short track (on your right) leads to a seat at the edge of an unfenced cliff with views and a seat.

#### 4.96 | Valley viewing area

(880 m 16 mins) Turn left: From the intersection near the 'viewing point', this walk heads gently uphill directly away from the viewing area, keeping the valley on your right. The track leads up a few short, moderately steep sections for about 100m, then the track heads much more gently up through the open scribbly gum forest for about 400m before passing under the power lines. Here, the walk turns left and follows the wide trail for about 40m and turns right (before the locked gate), following a GNW arrow post under another set of power lines. The walk follows the track through the pleasant forest for just shy of 300m then crosses the dirt Glendale Rd to find 'Berowra Waters' sign pointing back across the intersection.

#### 5.84 | Int of GNW and Glendale Road

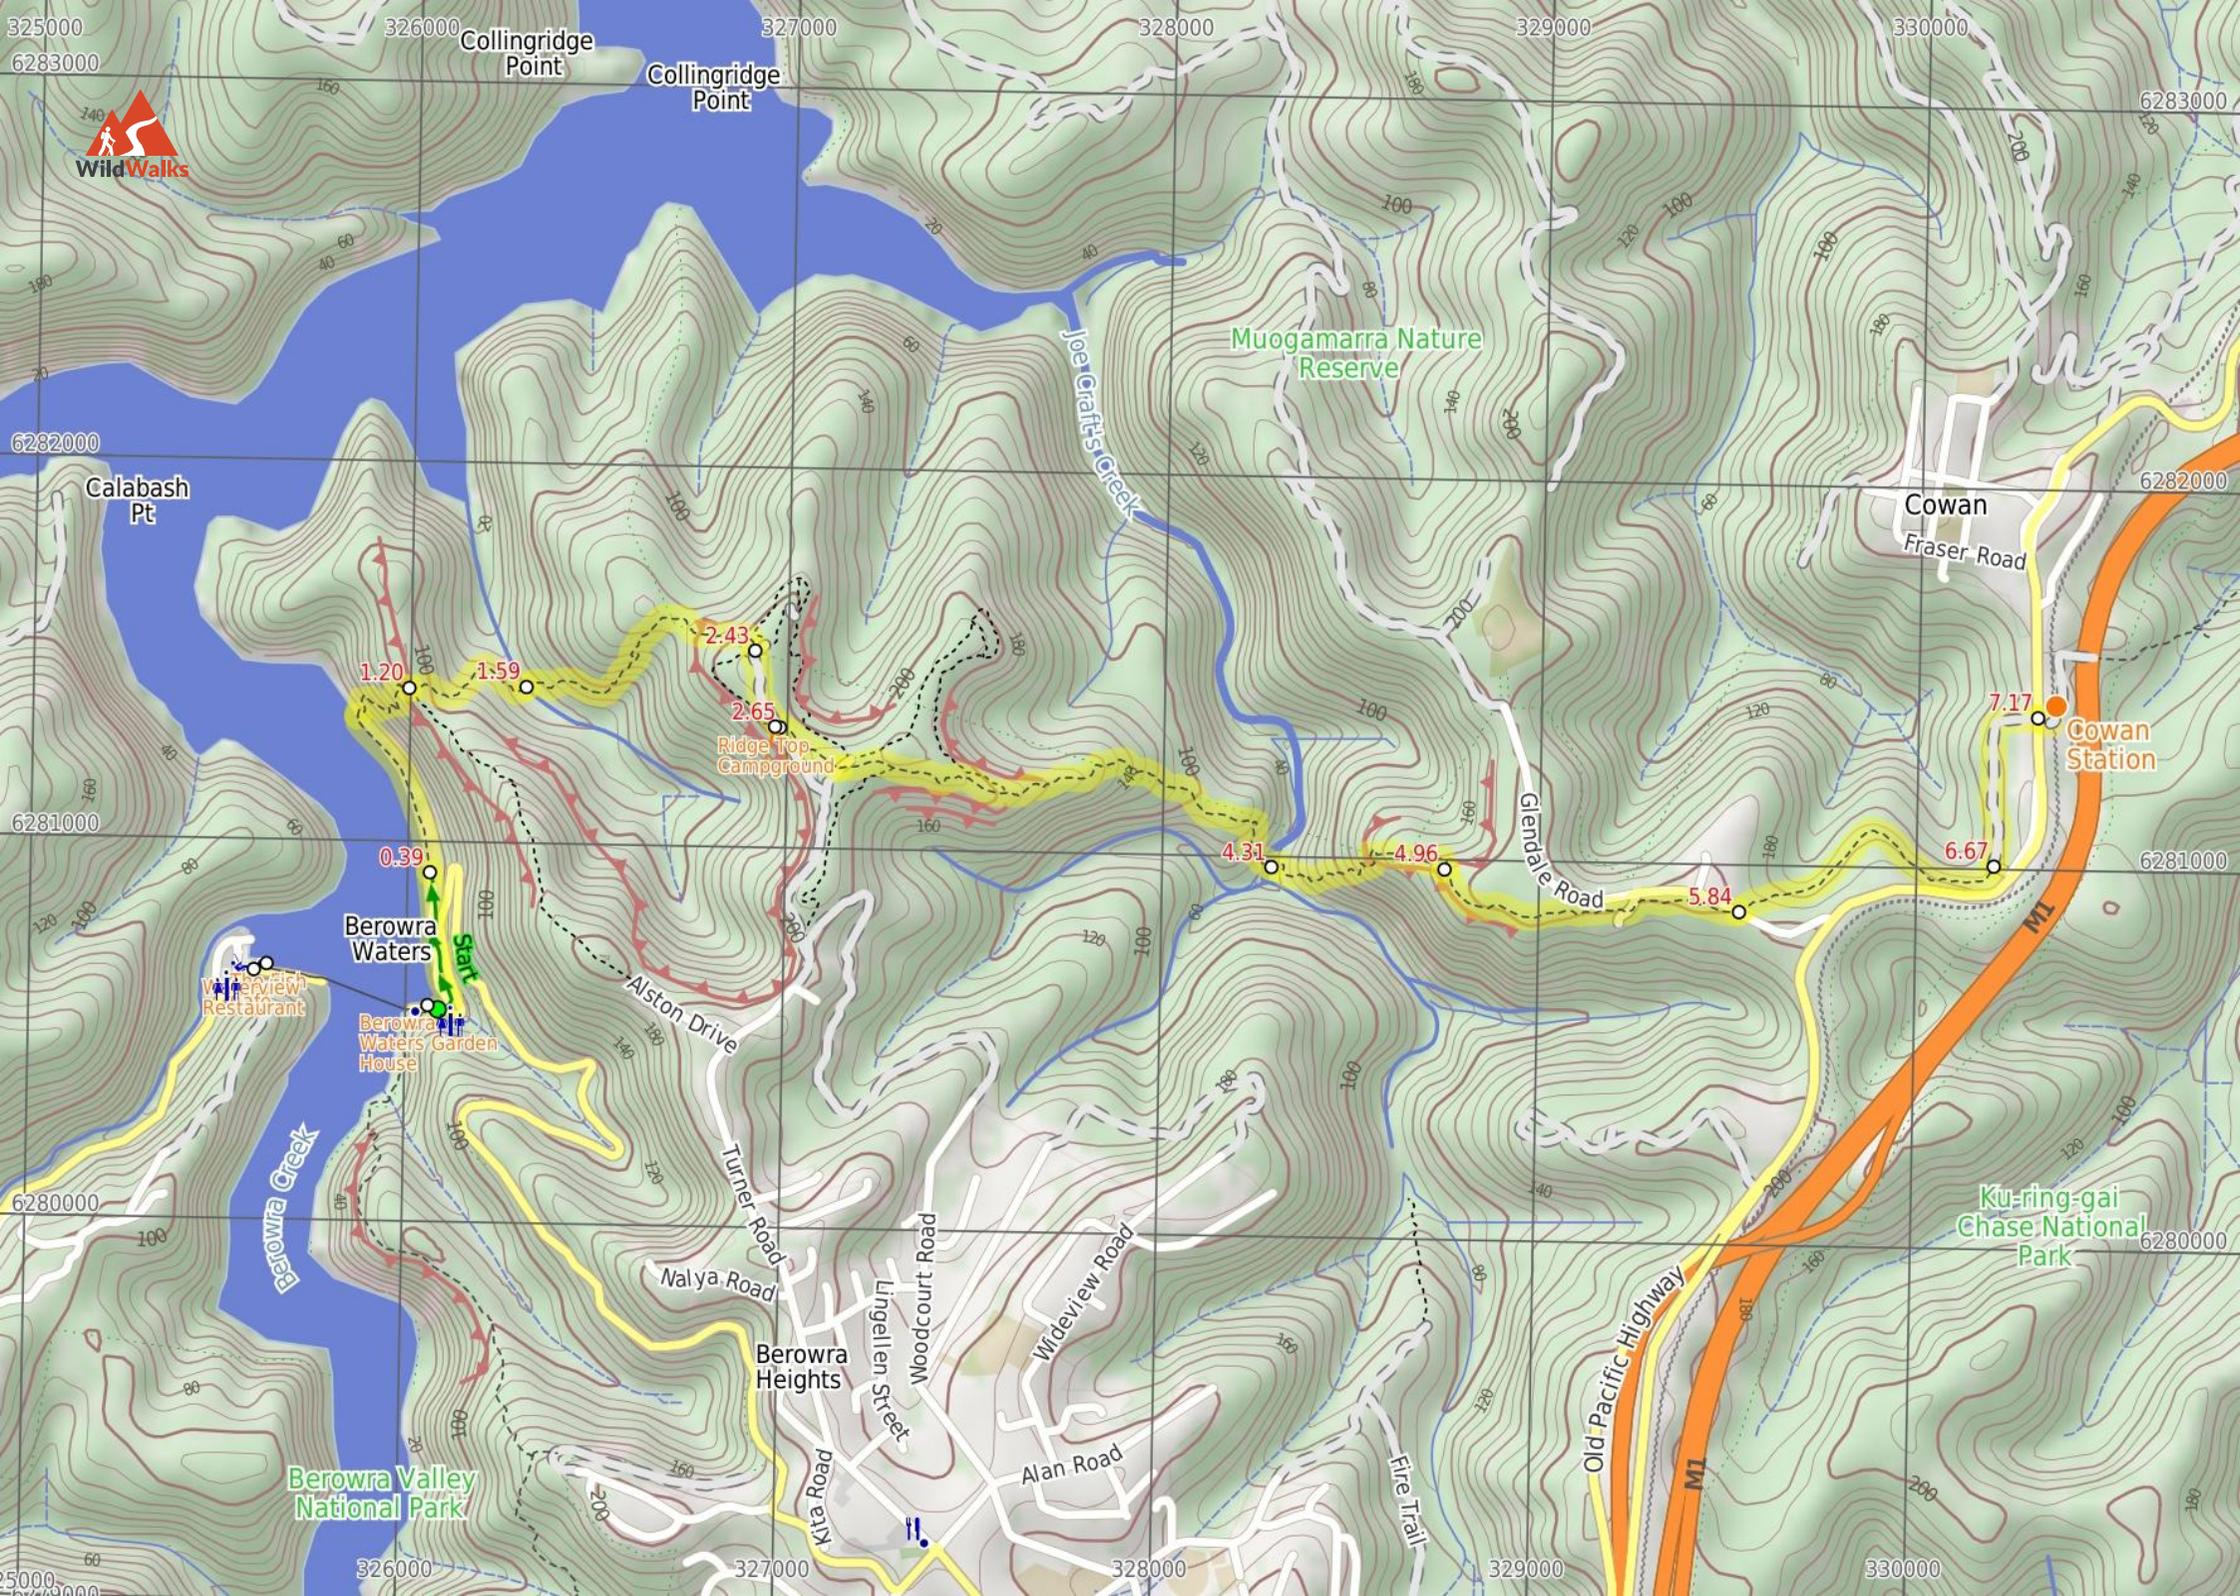

(830 m 19 mins) Continue straight: From the intersection, this walk follows the 'Cowan' sign away from the dirt road and down along the rocky and sandy track. The track winds through the forest (with some interesting twisted, thin scribbly gums) for about 600m before bending left and following under a set of power lines. Near the Pacific Hwy (up to your right), this walk continues for about 150m and crosses over a very short section of timber boardwalk before climbing up a few steps to a T-intersection with a wide management trail.

#### 6.67 | Int of GNW and Pacific Highway service trail

(500 m 11 mins) Veer left: From the intersection, this walk follows the GNW arrow post gently downhill, keeping the valley views to your left. The trail gently winds behind some houses (up to your right) for about 400m before bending right and heading up through a weedy section. The walk then passes around a locked gate to come to an intersection with a footpath, just before the Pacific Hwy and across from Cowan station. There is a large 'Great North Walk' sign here, pointing back to 'Sydney Cove'.

#### 7.17 | Int of GNW and Pacific Highway service trail

(40 m 1 mins) Continue straight: From the intersection, this walk follows the Great North Walk arrow across the Pacific Highway (be careful of traffic) to the ramp at the front of Cowan Railway Station.
